## FACULTY OF NURSING

#### **APPROVED DISSERTATION TOPICS 2011-12**

### I. Child Health Nursing

SL NO	TOPIC
1	A study to assess the effectiveness of selected play activities in reducing
	anxiety among Hospitalized children
2	A study to assess the effectiveness of structured teaching program on
	knowledge regarding the integrated management of Neonatal and
	childhood illness among the staff nurses in selected Hospitals at
	Malappuram District
3	Effectiveness of play therapy on anxiety and pain among children
	undergoing intra venous cannulation
4	A comparative study to evaluate the effectiveness of oral glucose and local
	anaesthetic cream on pain during venu puncture in neonates in a selected
	hospital at Kollam
5	Effectiveness of bibiotherapy on stress among Hospitalised children
6	Effectiveness of intermittent saline flush on patency of peripheral venous
	catheter among Hospitalised children
7	A study to assess the effectiveness of structured teaching programme on
	adverse effects of substance abuse among adolescent boys studying in a
	selected School at Kannur
8	A study to assess the effectiveness of planned teaching programme on
	prevention of obesity among adolescents studying in a selected school at
	Kannur
9	A study to assess the effectiveness of oral glucose administration on
	reduction of pain response among infants during venepuncture in a selected
10	Hospital at Kannur
10	A study to assess the effectiveness of distraction technique in reduction of
	pain among children undergoing venepuncture in a selected Hospital at Kannur
11	A comparative study to assess the emotional problems among children of
11	employed and unemployed mothers studying in selected primary school at
	Kannur
12	Evaluate the effect of an infant assessment guide on the knowledge of the
12	mother regarding growth and development of infants
13	Evaluate the effect of structured teaching programme regarding learning
	child abuse on knowledge of teachers
14	Evaluate the effect of structured teaching programme regarding learning
	disabilities of children of knowledge of teacher
15	Effect of late cord clamping on Physiological outcome of neonates
16	Comparative study on prevalence of overweight among adolescents of 10-
	15 years in urban and rural areas of Alappuzha.
17	Effect of planned teaching progralllffie regarding menstrual hygiene among
	adolescent girls in selected schools of Alappuzha.
18	Assess the effect of relaxation therapy on stress among adolescents.

19	Effect of Coccut oil massage on changes in weight and behavioral response oflow birth weight babies.
20	Comparative study to assess the effect of balloon therapy versus incentive
20	spirometry on respiratory status of children with wheeze.
21	Problems related to peripheral venous access among children of age 3-12
	years in the Pediatric Medical wards of SAT Hospital, Thiruvananthapuram
22	Identification of problems of children with Hypothyroidism
23	Effectiveness of swaddling on pain among Preterm neonates during Venipuncture
24	Effect of breathing exercises as play way methods on respiratory
24	parameters among children with lower respiratory tract diseases
25	Parenting among mothers of mentally retarded children
26	Clinical and epidemiological profile of measles in children
27	Factors contributing to the development of Urinary in children below 16 years
28	Effectiveness of selected teaching strategies in improving the knowledge,
	attitude and practice regarding Paediatric CPR among 11 year B.Sc Nursing students
29	Impact of awareness programme on knowledge regarding child abuse
	among school children
30	Effect of educational intervention package on knowledge and practice of
	mothers regarding home care of children with nephrotic syndrome
31	Effect of Buteyko breathing technique on respiratory parameters and
	quality of life of 5 to 12 years old children with Asthma
32	Effect of lateral position on physiological parameters and comfort of
32	infants below six months of age with lower respiratory tract infections
33	Effect of cling film as a heat shield in baby outcome among low birth
33	
	weight babies admitted in newborn ICU in New Medical College Hospital, Thrissur
34	Effect of warm water bath vs tepid sponge in reducing emperature, heart
	rate and respiratory rate in under 3 children with pyrexia
35	Effect of structured instructional module regarding oral hygiene on
	knowledge, attitude and practice of mothers of children in the age group 1 -
	4 years
36	Effect of body massage on pathological Jaundice among term neonates
37	Effect of structured teaching programme on knowledge, attitude and
	practice among staff nurses regarding the use of physical restraints in
	hospitalised children
38	Effect of selected positions on physiological parameters of neonates with
36	
39	respiratory distress  Effect of "Cough Trick" and blowing method in reducing intensity of points.
39	Effect of "Cough Trick" and blowing method in reducing intensity of pain
40	during intra muscular injection among children 4 - 10 years of age
40	Effect of SIM regarding HIV/AIDS on knowledge among high school children
41	A study to assess the knowledge on Child Abuse, personal experiences of
	Abuse and its impact on life among children in a selected School,
	Kothamangalam
42	A study to assess the knowledge and practice of staff nurses to prevent and
12	control Neonatal Nosocomial infections in maternal and Neonatal units of
	Common reconatar resoccimal infections in material and reconatar units of

	selected Hospitals at Ernakulam District, Kerala
43	A study of evaluate the effectiveness of self booklet on knowledge and
	attitude of school children regarding obesity and its prevention in selected
	School, Kothamangalam
44	A study to assess the knowledge and technique of intravenous therapy in
	relation to intravenous Infiltration among staff nurses in Paediatric unit of
	selected Hospitals at Ernakulam District, Kerala
45	A study to assess the knowledge and pattern of immunization among
	Mothers of Children aged five and reasons for defaulting in Two selected
	communities, Ernakulam District, Kerala
46	Risk factors of anorexia and its impact on nutritional status among under
	five children
47	Effectiveness of scheduled chest physiotherapy on respiratory outcome in
4.0	children with acute respiratory tract infection
48	Psychosocial problems and coping strategies of parents of autistic children
49	Assess the level of knowledge of mothers of under five children on the
	prevention of Dental caries and to find out the effectiveness of an
<b>7</b> 0	instructional module
50	Prevalence and factors influencing behavioural problems among
<b>5</b> 4	adolescent boys
51	Effectiveness of an instructional module on knowledge about personal
	hygiene among adolescent girls residing in orphanage
52	Effectiveness of a nurse assisted teaching programme to improve the
	knowledge of mothers regarding home management of acute respiratory
7.0	infection in under five children
53	Comparative study to assess the prevalence and risk factors of
	hypertension among management and Government Higher Secondary
T 4	students
54	Effectiveness of a planned teaching programme on knowledge regarding
	childhood obesity among mothers of obesed children
55	Effectiveness of a planned teaching programme among teachers on
	knowledge regarding identification and management of behavioural
<i>5</i> (	problems in primary school children
56	Effectiveness of a planned teaching programme on knowledge regarding
57	growth and development among mothers of toddlers
57	Effectiveness of a planned teaching programme on knowledge regarding
50	assessment of under five children among Anganwadi teachers
58	Effectiveness of a planned teaching programme on knowledge regarding
50	weaning among mothers of children between 0-6 months of age
59	Effectiveness of video assisted teaching to mothers on prevention of
60	respiratory tract infection of their children
60	Effect of play therapy on anxiety level among hospitalized children
61	undergoing therapeutic procedures
61	Effectiveness of video assisted teaching on knowledge of care givers in
	caring differently abled children

## II. Obstetrics And Gynaecological Nursing

SL NO	TOPIC
1	Effectiveness of self-instructional module on knowledge regarding
	Menopausal osteoporosis among perimenopausal women in a selected
	community in Perinthalmanna
2	Effectiveness of structured teaching program on performance of Partograph
	by the staff nurses in labour room in selected Hospitals at Malappuram
	District
3	Effect of structured teaching on knowledge regarding prevention of cervical
4	cancer among adolescent girls in selected colleges at Malappuram
4	Effect of audio-drama on the knowledge of menstrual hygiene among visually challenged girls
5	Effect of video-assisted teaching programme on knowledge and
3	psychosocial adjustment regarding pubertal changes and menarche among
	early adolescent girls
6	Effect of Music therapy on pain perception and anxiety level of
	primigravida mothers in first stage of labour
7	Effect of proper body posture maintenance on back pain among antenatal
	mothers
8	Effect of structured teaching programme on self care management of
	gestational diabetes mellitus in improving knowledge, practice, maternal
	outcome and newborn well being among women with gestational diabetes
9	Effect of yoga on menopausal symptoms among women who attained
	menopause
10	Psychosocial well being, coping strategies and quality of life of women
	with infertility
11	Compare the effectiveness of sitz bath and infrared therapy on episiotomy
10	wound among post natal mothers
12	Effectiveness of muscle therapy on anxiety and pain among mothers during first age of labour
13	Effectiveness of selected nursing interventions on physiological adaptation
13	of postnatal women
14	Effect of multi instructional package on knowledge regarding Breast Self
1 '	Examination among college students
15	Effect of video assisted structured teaching programme on knowledge
	regarding breast crawl among staff nurses
16	Assess the relationship between Body Mass Index and Menstrual
	irregularities among adolescent girls
17	Effect of self instructional module on knowledge regarding use of
	expressed breast milk among staff nurses
18	Effect of Aroma therapy on pain perception and behavioral response among
	parturient women
19	A study to assess the effectiveness of pranayama in relieving
20	postmenopausal symptoms among women in selected areas at Kannur
20	A study to assess the effectiveness of video assisted teaching on
	knowledge regarding the management of lower back Ache during
21	pregnancy among antenatal mothers in a selected Hospital at Kannur
21	A study to assess the effectiveness of Benson' relaxation therapy on

reduction of stress among primigravid mothers attending the of department in a selected Hospital at Kannur  A comparative study to assess the effectiveness of rose oil may back massage on labour pain during the first stage of labour a parturient mothers in a selected Hospital at Kannur  A study to assess the effectiveness of structured teaching programmed in a selected hospital at Kannur  Evaluate the effect of structured teaching programme on known attitude and practice regarding reproductive health among address of Pinarayi Panchayat  Effect of nipple stimulation on induction of labour among full	assage and among gramme on ravid mothers
A comparative study to assess the effectiveness of rose oil may back massage on labour pain during the first stage of labour a parturient mothers in a selected Hospital at Kannur  A study to assess the effectiveness of structured teaching programme in a selected hospital at Kannur  Evaluate the effect of structured teaching programme on known attitude and practice regarding reproductive health among addresses of the effect of soya protein on menopausal problems among wome wards of Pinarayi Panchayat  Effect of nipple stimulation on induction of labour among full	gramme on cavid mothers
back massage on labour pain during the first stage of labour a parturient mothers in a selected Hospital at Kannur  23 A study to assess the effectiveness of structured teaching programme in a selected hospital at Kannur  24 Evaluate the effect of structured teaching programme on known attitude and practice regarding reproductive health among address of Pinarayi Panchayat  26 Effect of nipple stimulation on induction of labour among full	gramme on cavid mothers
parturient mothers in a selected Hospital at Kannur  A study to assess the effectiveness of structured teaching programme in a selected hospital at Kannur  Evaluate the effect of structured teaching programme on known attitude and practice regarding reproductive health among addressed Effect of soya protein on menopausal problems among women wards of Pinarayi Panchayat  Effect of nipple stimulation on induction of labour among full	gramme on ravid mothers
A study to assess the effectiveness of structured teaching programwelder regarding breast feeding technique among primigration in a selected hospital at Kannur  Evaluate the effect of structured teaching programme on known attitude and practice regarding reproductive health among addressed Effect of soya protein on menopausal problems among women wards of Pinarayi Panchayat  Effect of nipple stimulation on induction of labour among full	ravid mothers wledge,
knowledge regarding breast feeding technique among primigr in a selected hospital at Kannur  24 Evaluate the effect of structured teaching programme on know attitude and practice regarding reproductive health among add  25 Effect of soya protein on menopausal problems among wome wards of Pinarayi Panchayat  26 Effect of nipple stimulation on induction of labour among full	ravid mothers wledge,
in a selected hospital at Kannur  Evaluate the effect of structured teaching programme on know attitude and practice regarding reproductive health among add  Effect of soya protein on menopausal problems among wome wards of Pinarayi Panchayat  Effect of nipple stimulation on induction of labour among full	wledge,
<ul> <li>Evaluate the effect of structured teaching programme on know attitude and practice regarding reproductive health among add</li> <li>Effect of soya protein on menopausal problems among wome wards of Pinarayi Panchayat</li> <li>Effect of nipple stimulation on induction of labour among full</li> </ul>	•
attitude and practice regarding reproductive health among add  Effect of soya protein on menopausal problems among wome wards of Pinarayi Panchayat  Effect of nipple stimulation on induction of labour among full	•

wards of Pinarayi Panchayat  26 Effect of nipple stimulation on induction of labour among full	
26 Effect of nipple stimulation on induction of labour among full	n in selected
	11
Evaluate the effect of structured teaching programme regarding	ng polycystic
ovarian syndrome on knowledge of adolescent girls	
28 Effect of music therapy on stress and BP among antenatal wo	men with PIH
Effect of pre operative structured teaching	
programme on selected outcomes among women undergoing	<u> </u>
A study to assess the quality of life of women after hysterector	my in
selected areas of Alappuzha district.	
31 Effect of breathing exercise on level of stress of antenatal more	
Effect of birth preparation class on outcome of labour among	primigravidae
admitted in Medical College Hospital, Alappuzha.	
Effect of walking during the latent phase of first stage of labo	ur on duration
of labour and labour outcome	
Effect of educational interventional package on knowledge an	
mothers regarding care of premature babies admitted in SAT	Hospital,
Thiruvananthapuram	
Perinatal outcome in hypertensive and normotensive pregnant	t mothers - A
comparative study	
Male's perception on No-Scalpel Vasectomy - A cross section	
Effect of Music therapy on pain and anxiety among primi grav	vid women
during first stage of labour	
38 Effect of non Pharmacological measures on pre menstrual syr	ndrome among
adolescent girls	
Effect of anticipatory guidance of pain, anxiety and post operations.	
among women undergoing Hysterectomy for benign Gynaeco	•
lesionsEffect of anticipatory guidance of pain, anxiety and po	-
outcome among women undergoing Hysterectomy for benign	Ļ
Gynaecological lesions	
Effect of psycho prophylaxis on pain and anxiety among low	risk parturient
women during first stage of labor	
Effect of post birth mother newborn skin - skin contact on Broad	
outcome and Neonatal Behavioural responses among primigra	avid women
admitted for labour	
42 Effect of sitting position vs lying position during the first stag	
maternal, Fetal and Neonatal outcome out come among Primi	gravid
Women in labour	
	siological

4.4	parameters among women undergone abdominal Hysterectomy
44	Evaluate the effect of structured instructional module regarding abortion on
	knowledge among women with spontaneous abortion admitted in selected
4.5	Hospitals of Calicut
45	Effect of sitting pelvic tilt exercises on back pain among antenatal mothers
46	Effect of acupressure on intensity of Nausea and vomiting among Antenatal
477	women with hyperemesis Gravidarum
47	Effect of self instructional module regarding polycystic Ovarian disease on
40	the knowledge among adolescent girls
48	Effect of reflex zone stimulation on initiation and maintenance of lactation
40	among postnatal mothers
49	Outcome of an Information Booklet on Awareness Regarding Warning
70	Signs of Pregnancy among Primigravid Women
50	Effect of Coughing on duration of Third stage of labour
51	Impact of Mother Craft Classes on Child Birth Satisfaction among
<b>50</b>	Primigravid Mothers
52	Explore the Labour Experience of women postnatally
53	Effect of Acupressure on Discomforts of Dysmenorrhea among Higher
<i>7.</i> 4	Secondary Students
54	A study to assess the knowledge on Menopausal changes, problems
	experienced and its impact on daily activities at home and in work among
<i></i>	working women in selected institutions at Ernakulam District, Kerala
55	A study to assess the effectiveness of prenatal education regarding
	breathing techniques on pain perception and anxiety level among
	primigravida women during first stage of labour in a selected Hospital at
56	Kothamangalam  Effectiveness of clive oil healt message on lebour poin during the first stage.
30	Effectiveness of olive oil back massage on labour pain during the first stage
57	of labour among primi gravida women  Effectiveness of yoga therapy on postmenopausal symptoms among post
31	menopausal women
58	Effectiveness of infrared therapy and icepack application on Episiotomy
36	pain and wound healing among primi postnatal mothers
59	Effectiveness of progressive muscle relaxation technique on
39	Dysmenorrhoea among young adults (18 - 22 years)
60	Effectiveness of instructional module on sexually transmitted Disease
00	among adolescent girls
61	Knowledge and Attitude of men and women towards No Scalpel
01	Vasectomy
62	Risk factors of post partum depression among primiparous Mothers
63	Effect of planned teaching program about milk expression
64	Effectiveness of progressive muscle relaxation technique on pain among
<b>5</b> i	patients undergone caesarean section
65	Effectiveness of hot application compared to back massage in relieving
	labour pain
66	Effectiveness of planned teaching programme for kudumbasree workers on
50	breast self examination
67	Comparison of outcome of labour among teenage and adult pregnant
07	women
68	A study of find out the effectiveness of Hoffman's exercise compared to oil
00	11 stady of this out the effectiveness of Hoffman's excluse compared to off

	massage on successful breast feeding among antenatal primigravid women
	with flat and retracted nipples
69	Effectiveness of selected nursing interventions on early recovery of
	women after cesarean section
70	Assessment of the quality of nursing care received by postnatal mothers
71	Effectiveness of saline dressing on episiotomy wound healing among postnatal mothers
72	Effect of Music therapy on anxiety among primimothers with Pregnancy Induced Hypertension
73	Effectiveness of a structured teaching programme on knowledge regarding HIV / AIDS among girls
74	Effect of acupressure on labour pain among primi mothers
75	Effect of specific Nursing intervention on level of anxiety in women who are posted for hysterectomy
76	Effect of structured teaching program on knowledge and opinion regarding temporary family planning methods among primigravida mothers
77	Effect of specific Nursing interventions in prevention of nipple soreness among primipara mothers admitted in Sanker Institute of Medical Science, Kollam
78	Effect of self instructional module on managing minor disorders of pregnancy among primigravida mothers
79	Effect of selected Nursing interventions on knowledge and practice of newborn care among primipara mothers
80	Effectiveness of information, education and communication (IEC) package on knowledge regarding the management of minor ailments of pregnancy among antenatal mothers
81	Efectiveness of selected nursing interventions on stress among women undergoing hysterectomy
82	Effect of information, education, communication (IEC) package on knowledge of nurses regarding management of selected Obstetrical emergencies
83	Effectiveness of instructional module on knowledge and reported practice among postnatal mothers having low birth weight babies on homecare management

### III. Medical Surgical Nursing

SL NO	TOPIC
1	Effectiveness of structured teaching program on knowledge and attitude on
	prevention of diabetic foot ulcer among clients with diabetes mellitus
2	Assessment of knowledge and attitude on self administration of insulin
	among clients with diabetes mellitus
3	Assessment of knowledge and attitude on organ donation among health
	professional and non health professional students
4	Assessment of knowledge and attitude regarding Tobacco use among
	adolescent boys
5	Effect of structured teaching programme for staff nurses on
	knowledge regarding identification and

	management of life threatening cardiac Dysrhythmias
6	
U	Assessment of the knowledge regarding legal aspects in Nursing among staff nurses
7	
'	Effect of structured teaching programme on knowledge regarding home
	care management and compliance with therapy among patients with
0	chronic renal failure undergoing Haemodialysis
8	Effect of structured teaching programme on knowledge and practice of
0	infection control among patients with cancer undergoing Chemotherapy
9	Effect of individualized structured video assisted teaching programme on
	knowledge and practice of foot care among clients with Type2 diabetes
10	mellitus
10	Effect of self instructional module on knowledge regarding rehabilitation
	among caregivers of patients with stroke
11	Effect of structured teaching programme on knowledge and practice of
	body mechanics among staff nurses working in critical care areas
12	Effectiveness of multicomponent intervention on blood sugar level among
	Type2 diabetes mellitus clients
13	Effectiveness of reflexology on pain and anxiety among cancer patients on
	palliative care
14	Effectiveness of leg ergometric exercise on fatigue among chronic Kidney
	disease patients undergoing hemo dialysis
15	Effectiveness of progressive muscle relaxation on post operative pain and
	anxiety among patients undergone abdominal surgery
16	Effectiveness of proprioceptive neuromuscular facilitation on muscle
	strength and activities of daily living of clients with cerebrovascular
	accident
17	Assess the knowledge and practice of public regarding the use of
	antimicrobial agents
18	Evaluate the effect of cryo therapy on pain related to AV Fistula puncture
19	Effect of Structured teaching programme on knowledge and pratice of
	ergonomic exercises among computer users
20	Assessment of knowledge regarding fluid and electrolyte management of
	patients among staff nurses with a view to develop a nursing protocol
21	Assessment of knowledge of patients receiving chemotherapy for cancer
	regarding the home care with a view to develop a health guide
22	Effectiveness of video assisted teaching on knowledge regarding
	Methicillin-Resistant Staphylococcus aureus infection and its prevention
	among staff nurses in a selected hospitals at Kannur
23	A study to assess the effectiveness of a self instructional module on
	knowledge of home based self care among patients undergoing
	Hemo9dialysis in selected Hospitals at Kannur
24	A study to assess the effectiveness of structured teaching on knowledge
	regarding prevention if Decubitus Ulcers among care givers of patient with
	Neurological impairment in selected Hospitals at Kannur
25	Evaluate the effectiveness of self instructional module (SIM) on knowledge
	regarding Triage system among staff nurses in selected Hospitals at Kannur
26	Effectiveness of self instructional module on knowledge and practice
	regarding prevention of health problems among traffic police at Kannur
27	Effect of multi interventional package on quality of life

	of patients with filariasis
28	Effect of Acetic Acid soak on healing process of foot ulcer among diabetic
20	clients
29	Effect of beugerallens exercise on peripheral circulation in diabetic patient
30	
30	Cardiac invalidism and its relation with specific contribution factors among clients with CAD
31	Effect of Anulom Vilom Pranayama on the Stress level of patients with
31	Myocardial Infarction.
32	Effect of Cardiac counseling on quality of life of patients with chronic heart
	failure attending
	cardiology department of Medical College
	Hospital, Alappuzha.
33	Effect of foot reflexology on post operative pain among patients undergone
	abdominal surgery.
34	A comparative study on effectiveness of hypertonic saline compress vis
	glycerine magsulf application in management of superficial
	thrombophlebitis among patients admitted in Medical College Hospital,
	Alappuzha.
35	A study to compare the effect of use of super - oxidized solution vis
	povidone iodine on wound healing in patients admitted with diabetic foot
	ulcer in Medical College Hospital, Alappuzha.
36	Risk factors of Esophageal cancer - A case control study
37	Risk factors of colorectal cancer - A case control study
38	Factors contributing to diabetic foot Ulcer among patients with diabetes
20	Mellitus
39	Social problems and self esteem among male and female patients with
40	seizure disorders - A comparative study
40	Quality of life patients with stroke and its associated factors
41	Biopsychosocial problems and health seeking behaviour of patients with
12	hemorrhoids - A cross sectional study
42	Effectiveness of coonseling on psychosocial problems of patients who
	underwent colostomy and ileostomy in Medical College Hospital,
43	Trivandrum Outcome of patients with Traumatic Brain Injury
43	Outcome of patients with Traumatic Brain Injury  Effect of a structured teaching programme on knowledge and practice of
44	Effect of a structured teaching programme on knowledge and practice of inotropic drug administration among staff nurses
45	Effect of acupressure therapy on depression and subjective well being
43	among patients on maintenance hemodialysis
46	Effect of intervention package on oral complications among patients
70	receiving radiation therapy for head and neck malignancies
47	Effect of topical heparin versus normal saline compress on superficial
' '	thrombophlebitis among patients receiving intravenous therapy
48	Effect of foot reflexotherapy on post operative pain and physiological
	parameters among patients undergoing urological surgery
49	Effect of modified Jacobson's progressive muscle relaxation technique on
./	anxiety, depression and physiologic parameters among patients with
	chronic renal failure
50	Effect of topical anesthetic cream and cutaneous stimulation on AV fistula
	puncture related pain among patients undergoing hemodialysis
	Transfer transfer and part and

<ul> <li>Effect of a Planned Nursing Intervention on Selected Clinical Adequacy of Dialysis and Quality of Life of Patients undergouter Hemodialysis in Medical College Chest Hospital, Thrissur</li> <li>Effect of sitting breathing exercise on blood glucose level at with Type 2 diabetes mellitus</li> <li>Effect of Cryotherapy on pain and facial Ecchymosis among undergone cranial surgery</li> <li>Effect of structured educational programme regarding prevential to a service of the programme regarding preventions.</li> </ul>	going
Hemodialysis in Medical College Chest Hospital, Thrissur  Effect of sitting breathing exercise on blood glucose level ar with Type 2 diabetes mellitus  Effect of Cryotherapy on pain and facial Ecchymosis among undergone cranial surgery  Effect of structured educational programme regarding prevents.	
52 Effect of sitting breathing exercise on blood glucose level at with Type 2 diabetes mellitus  53 Effect of Cryotherapy on pain and facial Ecchymosis among undergone cranial surgery  54 Effect of structured educational programme regarding preventions.	mong patients
with Type 2 diabetes mellitus  Effect of Cryotherapy on pain and facial Ecchymosis among undergone cranial surgery  Effect of structured educational programme regarding prevents.	mong patients

result later appeals to d Discourse in 1 1 1 1 1 1	ention of
ventilator associated Pneumonia on knowledge and practice	of staff nurses
Effect of computer based teaching programme among staff to	nurses
regarding evidence based nursing practice	
Effect of Betadine dressing and surgical spirit dressing on p.	revention of pin
site infection among patients with skeletal traction	
57 Effect of specific inspiratory muscle training with pursed lip	breathing and
pursed lip breathing alone on level of Dyspnea among patien	nts with COPD
Effect of Therapeutic back message on the quality of sleep a	among patients
who have undergone Coronary Artery Bypass Graft(CABG)	)
59 Effect of sodium bicarbonate oral irrigation on oral mucosit	is among head
and neck cancer pateitns receiving radiation therapy.	
60 Quality of Life among Stroke Survivors	
Effect of a structured teaching programme on knowledge re-	garding
pulmonary rehabilitation among patients with Chronic Pulm	nonary Disease
(COPD)	-
62 Effect of an information booklet on selected body mechanic	s on knowledge
and practice among Staff Nurses	_
Effectiveness of structured teaching programme among care	e givers on
managing patients with epilepsy attending KIMS Hospital,	
Thiruvananthapuram	
Effectiveness of structured teaching programme on manager	ment of
diabetes mellitus among diabetic patients at KIMS Hospital	,
Thiruvananthapuram	
Effectiveness of structured teaching programme on quality of	of life of
hypertensive patients in KIMS Hospital, Thiruvananthapura	ım
Effectiveness of structured teaching programme on manager	ment of side
effects of chemotherapy among cancer patients attending K	IMS Hospital,
Thiruvananthapuram	
Effectiveness of pre operative teaching on post operative co	<u>-</u>
among patients undergoing major abdominal surgeries at Kl	IMS Hospital,
Thiruvananthapuram	
Effectiveness of an instructional module on anxiety levels o	
undergoing magnetic resonance imaging at KIMS Hospital,	
Thiruvananthapuram	
69 Effectiveness of structured teaching programme on domicili	
patients with rheumatoid arthritis in KIMS Hospital, Thiruv	
Effectiveness of a planned teaching programme on respirator	•
mechanically ventilated patients among staff nurses in inten	sive care units
of KIMS Hospital, Thiruvananthapuram	
	rding stroke
	C

	KIMS Hospital, Thiruvananthapuram
72	Effectiveness of structured teaching programme on cardiac rehabilitation
12	among patients with acute coronary syndrome at KIMS Hospital,
	Thiruvananthapuram
73	A study to assess the information expected and received by the waiting
73	attenders of ICU patients in a selected Hospital at Ernakulam
	District, Kerala
74	A study to assess the knowledge and skill in performing BLS among nurses
' '	working in Mar Baselios Medical Mission Hospital, Kothamangalam
75	A study to assess the knowledge and practice of staff nurses on infection
, , ,	control in relation to the management of patients with intravenous therapy
	in a selected Hospital at Ernakulam District, Kerala
76	A study on factors influencing compliance to therapy among Hypertensive
	patients in a selected community at Ernakulam District, Kerala
77	A study to assess the knowledge, attitude, and practice of Diabetic patients
	regarding control of Blood Sugar in a selected Hospitals at Ernakulam
	District, Kerala
78	Effect of planned teaching programme on prevention of occupational Lung
	disorders among workers of selected small scale industries in Ernakulam
	District
79	Effect of Music Therapy on anxiety among patients undergoing coronary
	angiography at Medical Trust Hospital, Kochi – 16
80	Effect of planned teaching programme on prevention of peripheral vascular
	disease among patients with diabetes mellitus in Medical Trust Hospital,
	Kochi - 16.
81	Effect of back massage on anxiety of patients posted for Cardiac
	Catheterization in Medical Trust Hospital, Kochi – 16
82	Effect of planned teaching programme on prevention of coronary artery
	disease among sedentary workers in selected offices of Ernakulam District.
83	Effectiveness of cognitive exercises on cognitive functions of high risk
	cases of Dementia among old age people
84	Effectiveness of therapeutic back massage on the quality of sleep among
0.5	Orthopedic surgical patients
85	Effectiveness of Music therapy on anxiety among Hemodialysis patients
86	Effectiveness of footbath therapy on fatigue among cancer patients, who
07	are receiveng Chemotherapy
87	Effectiveness of vogic practices on Glycemic control among Type-2
00	diabetic patients
88	Effectiveness of therapeutic foot massage on pain level among cancer
00	patients
89	Effectiveness of Jacobson's progressive muscle relaxation therapy on
00	anxiety among cancer patients
90	Effectiveness of meditation on the level of anxiety among patients with

## IV. Community Health Nursing

SL NO	TOPIC
1	A study to compare the prevalence of malnutrition among under five
	children using selected methods of growth assessment in a rural community
2	A study to compare selected health seeking behaviour of families in rural
	and urban areas of Kerala
3	A study to evaluate the effectiveness of video assisted game and drill on
	knowledge and practice on road safety measures among primary school
	children in selected schools Kollam
4	Effectiveness of physical exercise on computer related health problems
	among computer personal
5	Effectiveness of drill on knowledge, attitude and practice regarding disaster
	preparedness among costal inhabitants Kollam
6	A study to assess the effectiveness of structured teaching programme on
	knowledge regarding Dental health among primary school children in a
	selected primary school at Kannur
7	A study to assess the effectiveness of self instructional module on
	knowledge regarding prevention of complication of diabetes mellitus
	among diabetic patients in selected area, Kannur
8	Prevalence of Nutritional Problems among under five children in selected
	anganwadies in costal areas of Alappuzha District.
9	A study to assess the compliance to anti-
	hypertensive therapy and the factors associated with non-compliance
	among hypertensive patients of ward 18 and 19 of Mararikkulam South
10	panchavath, Alappuzha.
10	Prevalence of respiratory problems among workers in selected coir
1.1	factories in Alappuzha District
11	A study to assess the knowledge and practice regarding first aid
	management in road traffic accidents among autorikshaw divers of
	Punnapra Panchayath, Alappuzha with a view to develop an instructional
12	module.
12	A study to assess the prevalence of respiratory tract infection among under five children and assess the knowledge and practice of motherof under five
	children regarding preventive measures of respiratory tract infection.
13	A study to assess the effectiveness of structured teaching programme on
13	knowledge and attitude regarding reproductive health among women of
	reproductive age group in selected area of Pozhiyoor
14	A study to assess the effectiveness of SIP on knowledge, attitude and
17	practice of self care management of diabetes mellitus among the
	individuals in selected wards of Pozhiyoor
15	A study to assess the effectiveness of instructional module on learning
	disabilities in lower primary school children, among the teachers of
	Government and private Malayalam Medium Primary Schools at
	Trivandrum District
16	An intervention study to assess the effectiveness of video assisted teaching
	stady to desired and threat to the stady to desired to the stady to desired to the stady to desired to the stady to

	programme on worm infestation among mothers of under five children in selected wards of Pozhiyoor
17	Utilization of primary health care services in the PHCS of coastal areas of Trivandrum District
18	Lack of exclusive breast feeding and its associated factors among mothers
	of infants in Thiruvananthapuram Corporation
19	Prevalence of menopausal symptoms among women of Trivandrum
	Corporation area
20	Infection control practices among staff nurses working in tertiary level
	health care institutions in Trivandrum District
21	Prevalence of substance use among boys of higher secondary school in
	Thiruvananthapuram Corporation
22	Prevalence of Needle Sick Injury among health care personnel Medical
	College Hospital, Thiruvananthapuram
23	Client satisfaction on patient care services provided through primary health
	centres in Trivandrum District
24	Prevalence of protein energy malnutrition among school children in
2.5	Trivandrum Corporation - A cross sectional study
25	Effect of instructional package on knowledge and practice regarding foot
26	care of patients with Type 2 diabetes mellitus
26	Knowledge and practice of sanitation workers regarding occupation related
27	diseases and its prevention
27	Effect of video assisted teaching on the knowledge of Primary School
	Teachers regarding the First Aid for common Medical emergencies among school children
28	Comparison of the effect of special school health programme and existing
20	school health programme on knowledge and practice related to health and
	subjective well being among High School Students
29	Identification of the nutritional problems among adolescent girls in selected
	schools of Thrissur district
30	Awareness and Utilization of ICDS services among Mothers of Under Six
	Children in a selected Rural Community of Thrissur district
31	Knowledge, attitude and practice regarding use and hazards of plastics
	among women
32	Effect of structured teaching programme regarding infection control on
	knowledge, attitude and practice among health care workers
33	Effect of structured teaching programme regarding prevention of varicose
	vein on knowledge among school teachers
34	Knowledge, attitude and practice regarding prevention of water borne
	diseases among women
35	Effect of nursing intervention strategy on Menopausal problems among
	menoposal women
36	Effect of structured teaching programme regarding immunization on
	knowledge, attitude and practice among tribal mothers of under five
	children
37	Effect of a Structured Teaching Programme on Knowledge and Practice of
	Household Waste management Among Women
38	Effect of A Planned Teaching Programme on knowledge regarding the
	importance of Vitamin A among mothers of under five children

39	
	Effect of Lady's Finger Juice on Blood Sugar among Client with Diabetes Mellitus
40	Effect of Structured Teaching Programme on Knowledge regarding Oral
41	hygiene among students of lower Primary School  Footogs contributing to Obserity among Periman angusel Women
41	Factors contributing to Obsesity among Perimenopausal Women
42	Knowledge on hazards of substance abuse
43	Effect of yoga on psychosocial wellbeing of institutionalized elderly
44	Causes of non compliance to antihypertensive regimen among hypertensive patients
45	Identification of occupational health problems among the computer professionals with a view to prepare an instructional module
46	Assessment of knowledge regarding growth monitoring of under five
.0	among Anganwadi teacher with a view to develop an instructional module
47	Identification of the causative factors of dental problems among school children
40	studying in seventh standard with a view to prepare a learning package
48	Identification of the determinant differences in the factors contributing to stress among senior citizens.
49	Identification of the major health problems among the spinning mill
	workers compared to general population with a view to prepare an
	instructional module
50	Effectiveness of teaching module on knowledge and reported practice of
	oral hygiene and pan chewing among High School Students
51	Effectiveness of teaching module on knowledge and reported practice of
	Anganwadi workers regarding prevention of Protein Energy Malnutrition
52	Effectiveness of video assisted teaching programme on knowledge and
	reported practice of eye health among high school students
53	Physical and psychological problems among elderly population
54	A study to assess the actual activities performed by ASHA (Accredited Social Health Activist) as perceived by family members in the population given to ASHA workers
55	Effectiveness of structured teaching programme on knowledge and attitude regarding prevention of occupational health hazards among quarry workers
56	Effectiveness of progressive muscle relaxation therapy on stress among employed mothers having under five children
57	Effectiveness of structured teaching programme on knowledge and attitude regarding prevention of reproductive tract infections among women
58	Effectiveness of structured teaching programme on knowledge and attitude of employed women regarding exclusive breast feeding
59	Effectiveness of training package on knowledge of safety measures for prevention of occupational health hazards among the workers of clay tile industries
60	Effectiveness of child to mother approach on knowledge of selected nutrients through structured instructions among school children and their mothers
61	Assessment of knowledge on modifiable risks factors of cardiovascular disease and its prevalence among adult men

### V. Mental Health Nursing

SL NO	TOPIC
1	Compare the effectiveness of humor therapy and laughter exercise on stress among old age people
2	Effectiveness of guided imagery technique on well being among inmates in selected old homes
3	A study to assess the quality of life among wives of patients with alcohol dependence syndrome attending selected deaddiction centres in and around Kannur District
4	A study to assess the effectiveness of structured teaching programme on knowledge and attitude towards alcohol abuse among adolescent boys in a selected schools at Kannur
5	A study to assess the effectiveness of music therapy on depressive symptoms among elderly in a selected Geriatric homes at Kannur
6	A study to assess the effectiveness of brief intervention (FRAMES) in change in levels of clients with alcohol dependence syndrome or harmful use of alcohol in selected Hospitals at Thiruvananthapuram District
7	Effectiveness of reminiscence therapy on cognitive function and subjective well being of senior citizens
8	Effect of cognitive behavior therapy on depression among patients with human immune deficiency virus
9	Effectiveness of progressive muscle relaxation exercise on anxiety and depression among senior citizens
10	Effectiveness of structured teaching programme on knowledge and attitude of junior public health nurses regarding Mental Disorders
11	Effect of Motivation Enhancement Programme on Relapse prevention in patients admitted with Alcohol Dependence Syndrome in Medical College Chest Hospital, Thrissur
12	Effect of Laughter Therapy on depression among elderly in selected Geriatric homes
13	Effect of Horticulture therapy on negative symptoms among patients with Schizophrenia
14	Effect of structured teaching programme regarding drug compliance and its side effects among caregivers of mentally ill clients
15	Effect of specified nursing interventions on socialization among patients with Schizophrenia
16	Effect of planned educational programme regarding child abuse on the knowledge of school age children
17	Identify the health problems and related risk factors among male Homosexuals
18	Effect of art therapy on aggressive behaviour among patients with Mania
19	Effectiveness of Psycho education on impact of disability among parents of mentally challenged children in Asha Bhavan, Changanacerry
20	Effectiveness of assertiveness training on self esteem among adolescent girls in St.Theresa's Girls Higher Secondary School, Pathanamthitta
21	Impact of laugher therapy on occupational stress among staff nurses working in KIMS Hospital, Thiruvananthapuram
