Reg. No.:.....

**Second Year MASLP Degree Regular/Supplementary Examinations
October 2019**

Language Acquisition and Language Disorders in Children

(2016 Scheme)

Time : 3 hrs

Max marks : 80

- **Answer all questions**

Essays:

(5x16=80)

1. What is the significance of Chomsky's contribution to the present day understanding of language acquisition in children. What inferences can you draw from his theory to explain disordered language. (8+8)
2. Comment about the language development in exceptional circumstances such as twins and hearing impairment
3. "Children with learning disability manifest persisting language deficits even as adolescents". Discuss. Add a note on "Landau Kleffners syndrome". (12+4)
4. What are your assessment and management procedures for children with ASDs. Give specific strategies in the background of their variants.
5. Assessment and intervention are best accomplished by a well-coordinated team. Discuss and give your management for developmental dyslexia.
