

QP Code: 212377

Reg. No:.....

**Second Year MASLP Degree Supplementary Examinations
July 2021**

Speech Perception and its Disorders

(2016 Scheme)

Time: 3 hours

Max marks: 80

- *Answer all questions to the point neatly and legibly • Do not leave any blank pages between answers • Indicate the question number correctly for the answer in the margin space*
- *Answer all parts of a single question together • Leave sufficient space between answers*
- *Draw diagrams wherever necessary*

Essays

(5x16=80)

1. Explain the revised motor theory of speech perception with supporting evidences.
2. Compare between subjective and objective methods in terms of their effectiveness in assessing speech perception. Explain any one objective method in detail along with the supporting studies.
3. How does sensorineural hearing loss affect perception of consonants? List the cues for the perception of stop consonants and indicate which one of them is affected in individuals with SNHL.
4. Explain your preference for cochlear implants over hearing aids with reference to the perception of segmental and supra-segmental cues of speech.
5. Write short notes on (4+4+4+4)
 - Invariance in speech perception
 - Speech in noise perception in individuals with hearing loss
 - Cues for the perception of nasals
 - The role of short-term memory in speech perception
