

Q.P. Code: 112325

Reg. no.:

MD (Hom.) Part I Degree Examinations, May 2017

2012 Scheme

(Common for all Specialties)

Paper II- Practice of Medicine

Time: 3 Hours

Total Marks: 100

- Answer all questions
- Draw diagrams wherever necessary

Essays

(4x20=80)

1. What do you understand by enteric fever. Describe the clinical features, course, complications, and miasmatic diagnosis of typhoid fever. Discuss preventive measures (including general management) for typhoid. Mention the indications of four homoeopathic medicines. (2+2+2+2+2+4+6=20)
2. Discuss the aetiopathogenesis, clinical presentations, complications, investigations, miasmatic diagnosis and general plan of management of iron deficiency anemia. Mention the indications of four homoeopathic medicines for managing problems incidental to iron deficiency. (2+4+2+2+2+2+6=20)
3. Discuss the aetiopathogenesis, clinical presentations, investigations, miasmatic diagnosis and general plan of management of lichen planus. How will you differentiate lichen planus from lichen simplex chronicus. Mention the indications of four homoeopathic medicines (two for skin lesions of lichen planus, one for oral lichen planus and one for lichen simplex chronicus). (2+4+2+2+2+2+6=20)
4. How will you proceed for the clinical assessment of a child with recurrent upper respiratory tract infection. Describe the clinical features and general plan of management of a child with adenoids. Mention the indications of four homoeopathic medicines (one for acute tonsillitis, one for chronic tonsillitis, and two for adenoids). (6+4+4+6=20)

Short notes:

(4x5=20)

5. Type-IV immune reaction
6. Hypercalcaemia
7. Role of homoeopathy in palliative care of terminally ill patient
8. Duchenne muscular dystrophy
