**MD (Hom) Part II Degree Examinations October 2017**

**(2012 Scheme)**

**Specialty - Repertory**

**Repertory - Paper I**

**Time: 3 Hours**

**Total Marks: 100**

- Answer all Questions.

**Essays:**

**(5x20=100)**

1. Elaborate on the practical utility of Knerr's repertory as compared to a Logico-Utilitarian repertory based on deductive logic.
2. Describe the structure, utility and limitations of RP Patel's corrected version of Kent's repertory, in the background of its evolution from Kent's repertory.
3. Explain how 'essential synthesis' by Shcroyens compares with the original Kent's repertory, in the background of additions drawn from Kent's annotations.
4. Illustrate the utility and limitations of Phatak's repertory, in the backdrop of its philosophy and construction.
5. Outline the specific clinical application of Boericke's repertory with examples of rubrics relevant for homeopathic general practice
